

SOUTH JERSEY BEACHES:

Bay Front Properties Finds a Partner to Grow With

You may have noticed a sea of Bay Front Properties' signs decorating the streets of Margate and Longport lately. While Bay Front Properties has been a leader in new and custom home construction for nearly two decades at our beloved shore, they are now booming. Bay Front has recently unveiled a strategic partnership with Oasis Property Group. With a dozen properties already under way, the partnership expects to continue its growth along the South Jersey shoreline.

Bay Front Properties has built its reputation on exceeding expectations. Experienced veteran, Anthony Almeida, explains he was **"taught and mentored by one of the most prominent and talented builders on the East Coast. I spent time honing my craft and learning the ins-and-outs of every trade. That way, I can hold the contractors accountable to my standards."** Almeida is seizing what he calls **"an opportunity of a lifetime."** **"We are excited and proud to be a part of the Oasis team. Together we are setting new standards and raising the bar in the marketplace."**

Oasis is a premier real estate development company recognized for its ability to secure desirable land at the best value in order to maximize the highest and best use for the end user. On partnering with Bay Front, **"The pool of talent here runs deep. I did my homework"**, Kaliner praises Almeida, **"Anthony is a builder that listens, it's that simple. He builds a personal relationship with his customers and holds their hands through the entire process. He provides a level of service that I haven't experienced before."**
