ABOUT

THE OASIS STORY

Oasis is a premier real estate development company with a highly-acclaimed reputation for creating exceptional residences in some of the most desirable settings across the Northeast. From elegant oceanview vacation homes to upscale center-city high-rise buildings, Oasis's extraordinary portfolio of properties represents the very best in quality, design excellence and luxury living.

LEADERSHIP:

"If you build it they will come,"..... remember the movie Field of Dreams? Well, we may not be building fields of dreams, but we are building homes of dreams. We put extra effort into choosing the best locations available, we listen carefully to your desires, and we deliver an exceptional product, every time...one you'll be proud of, and one you have dreamt of.

Through his 21 years building one of the nation's most successful home remodeling companies [Power Home Remodeling Group], Jeffrey Kaliner has the experience and relationships necessary to deliver quality and affordability. Jeff's integrity and "customer centric" approach are refreshing deviations from the norm. He was honored by Smart CEO Magazine as a top 50 CEO in the region, he was a Northeast regional Winner of the prestigious Ernst and Young Entrepreneur of the Year Award, and his company, because of the culture he created, was recognized by The Philadelphia Inquirer as Best Place to Work two years running. Jeff's philosophy of delivering beyond expectations coupled with his "roll up the sleeves" approach is sure to win over the hearts of home buyers with the most discerning taste. Jeff lives with his wife (Mara), twin boys (Ryan and Jordan), and daughter (Olivia). His family splits its time between Villanova and Margate.

Jeff believes that the success of any business relies on the quality of its team and partners. Oasis has forged a relationship with Anthony Almeida (aka Bulldog) of Bay Front Properties. With 20 years' experience in home building (the past eight in Atlantic County), and having worked for one of the premier custom builders in the region, "The Dog" is relentless in his pursuit of perfection. Anthony has earned the trust and confidence of local officials and tradesmen. It's not uncommon to have the neighborhood real estate brokers sing his praises. Anthony's attention to detail and superior craftsmanship are evident in his extensive gallery of homes. Whether building a design house or one custom to your individual taste, he

treats every home as if it was his own. Anthony's wife, Kathy, is part of the Oasis/Bay Front team, offering assistance with product selection and interior design. She also manages the household and their children Antonia (10) and Gabe (7).

Amy Ciriello is the so-called "right hand woman." Together, they help keep the guys in line, and the projects on time. The Oasis/Bay Front team recognizes the importance of customer service, so Amy make herself available seven days a week to uphold the corporate mission.... of course while maintaining her home and two children.

Oasis Property Group is shaping the future and changing the landscape of the South Jersey shoreline. We are proud of the homes we've delivered, and we are excited to showcase those that are currently under way. The future looks bright... there's no better time to consider a home at the Jersey Shore.

MINING THE DETAILS:

If it's important to you, it's important to us; so in addition to using the finest materials available, we hire only the finest workers to complete our installations. It is important to us that we keep every work site clean and safe. We respect our environment by making our homes green. From the use of remote programmable thermostats – to spray foam insulation – to tankless hot water heaters – to energy star appliances...we're doing our part. Our signature "O" home automation system, standard in every home, allows you to control your HVAC, lights, alarm, door locks, and surveillance cameras right from the palm of your hand.

QUALITY ASSURANCE:

We respect the fact that your home is your greatest investment, and we expect to support you for many years to come. Upon delivery, we take the time to educate you on the unique features we've included. But it's beyond settlement that makes us different. We welcome your questions, we welcome your feedback, we want your referrals. We're breaking new ground every day, developing and building the home of YOUR dreams. And we know, "if we build it you will come."

OUR CUSTOMERS SAY...

Anthony was great. Unlike other builders we interviewed, Anthony was a great listener. His demeanor and his passion for the project showed from the first time we met. He went...
